Subject: PCB Status Update for 01/19/17
Attachments: Minutes - Team Meeting 011917.docx

Dear Geniece and Laura:

Attached are the meeting minutes for yesterday's PCB update meeting. As per our discussion, Anna will submit the ADME Step 3 report in two weeks for your review. ICF has begun ADME Step 1 screening of 350 studies from the NDPR literature. ICF will also provide you with a status summary report on Hazard ID screening soon. Finally, Natalie will update the Excel tool that will be used in the background to match the study quality evaluation criteria. Natalie will also lead a 10-study pilot in which one person will review studies using the tool, and another will review studies without the tool.

Please don't hesitate to contact us with questions or comments about anything mentioned in the meeting minutes.

Many thanks,
